

- a. For assistance in removing rattlesnakes, consider these options:
- i. Scottsdale Fire Department - If the snake is determined to be poisonous and it is located inside your home or garage, or at the entrance to your home, call the fire department's non-emergency number at 480-312-8911. Be sure to watch the snake's movement, as it cannot be relocated if it cannot be found. Recognize these calls are a low priority for the department so you may not get a rapid response.
 - ii. Grayhawk Talon Security (480) 502-5078 - some (but not all) members of the security team are willing to come and remove rattlesnakes if time is available.
 - iii. If the snake is in your yard, and you are not comfortable waiting for it to return to its normal habitat, the Phoenix (602-550-1090) and Arizona (480-894-1625) Herpetological Associations are volunteer organizations that can relocate the snake.
 - iv. Rattlesnake Solutions (480) 237-9975 – this is a paid service. <https://rattlesnakesolutions.com/snake-removal/scottsdale-snake-removal.php>
