- ( ) Please remove/replace the directory listing(s).

**Complete this section if you want to be able to open the front gate using a cell phone or land line.**

With this option there is no need to give a code to one time vendors or visitors. If someone rents/resides in the unit besides the owner, the board recommends that person be given a listing. You may indicate up to two names. The name will be displayed at the call box and when a visitor activates the system, the phone number will be called, allowing the recipient to press "9" to open the gate.

**Complete this section if a second call box code is needed for your unit** for a renter, realty agent, one time contractor, etc. If you exercised the option above, you likely do not need a second code. If you do, be sure to notify APM when the code is no longer needed so that it may be deleted.
