

Tesoro Front Door Styles

The *Architectural Review Committee (ARC)* has reviewed several front entry door styles and approved the following options for replacement.

- 1) Original wood door - refurbished
- 2) Identical original wood door - replacement
- 3) Approved, fiberglass front entry door designs, pictured below.

All front entry door styles are required to be painted or stained in the approved Tesoro colors as listed on the [Building Paint Schemes](#) document located on the Tesoro website, www.tesorootgrayhawk.com under the *Residents* tab, *Governing Documents*.

An [Architectural Request](#) form is required to be *submitted* and *approved* for all door replacements **before** starting any repair work. Any questions should be directed to the [Architectural Review Committee \(ARC\)](#).

Thank you for your attention and commitment to promote consistency and in keeping with the *Tesoro CC&Rs*.
